

Best-in-class Electronic Product Design and Global Manufacturing Solutions

CUSTOM PRODUCT SOLUTIONS

Our in-house engineering design team can meet your unique technical, budgetary and supply requirements and take your product from concept to production. Led by our experienced R & D leadership team in Canada and supported by global partners around the world, we ensure delivery of a robust Design for Excellence (DFx) complete solutions.

We employ a proven, industry standard gated development process:

- ✓ Engineering Verification Test (EVT)
- ✓ Design Validation Test (DVT) including custom tooling
- ✓ Production Validation Test (PVT)
- ✓ Mass Production (MP)
- ✓ Customer engagement points customized to Customer's needs and comfort level

GLOBAL MANUFACTURING

When you work with Avnan, your products are designed in Canada and manufactured at our factories around the world giving you a cost competitive advantage. Our top priority is to provide high quality components for your products and ensure a commitment to service excellence at every step of our working relationship.

Benefits you can expect with our quality-focused manufacturing process:

- ✓ North American design and engineering services
- ✓ Deep, on-the-ground presence in lower cost manufacturing centres
- ✓ Consistent quality
- ✓ Reduce tariff impact

SUPPLY CHAIN MANAGEMENT

Simplify your supply chain, save time and money in the process. We can support single orders, or act as an extension of your procurement department. Our quality management leadership is based in Canada but we have 'boots on the ground' global presence. We have team members working for us in cost-competitive markets in Asia and extend our presence globally with a network of partners.

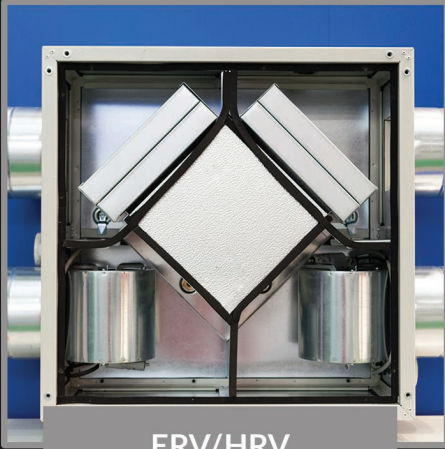

With Avnan's supply chain management solutions you can expect a host of benefits:

- ✓ Minimize wait times
- ✓ Reduce oversupply and stock-out situations
- ✓ Free up capital flow through lower inventories
- ✓ Save time spent on calculating, producing and correcting purchase orders

Driving Success for Over 25 Years

Avnan strives to provide customers with best-in-class electronics design and global manufacturing solutions, mitigating risks in the overall supply chain.
